

RETAIL LOTTERY SOLUTIONS

The **Lottery** world is constantly evolving. The most interesting development is represented by its **collision with the Retail sector**. In fact, it's now possible to purchase tickets and gamble in very different places, such as gas stations stores, even on the go. The Custom Group is **the ideal partner** to face this new trend.

SAFETY

Our solutions, both modulate and hybrid are set up to include all the precautions for **safe bets**, both from the operator's perspective and the client's, who'll be able to play completely independently thanks to the "unattended" setting.

NO MISTAKES

PC POS, mobile computer, Retail and Mobile printers, scanners and indoor kiosks: all these devices ensure **preciseness and speed**, may it regard data, scanning or printing, for a zero-error system.

+20
